Happy Hoosiers.

Wm. Timmons, postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c. a bottle. For sale by all druggists."

The Benefit of a Creamery.

While there is any amount of room for intelligent and successful private dairying, we now very seldom hear the advantages of well managed co-operative dairies disputed, and indeed how could anyone who knows anything of the hard work which necessarily imposes on our farmers' wives deny that the creameries and cheese factories have proved a blessing.

The creamery, paying cash every month, enables the farmers to buy their supplies on a cash basis, and thus do away with the pernicious and demoralizing exchange system, which costs them a great deal more than they are aware of, and which nevertheless is of no benefit to the storekeepers. But this is not all, the creamery is also a great practical educator. When Mr. A. only realizes \$20 or \$25 per cow, and he sees that Mr. B. realizes \$50 or \$60, he is very much inclined to inquire into the reasons, and improve his methods. When C. hears that D., who owns 100 acres, is able to milk 40 cows, while he (C.) with 200 acres, only milks 30, he is apt to do a little thinking. The creamery, especially if a co-operative one, will help to make business men of the farmers, and investigation will confirm the assertion that the successful farmers are business men.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was. Ten cent trial bottles at all drug stores.

Regular services at M. E. church every Sunday at 11 a. m. and 7:30 p. m. Subjects announced from the pulpit. Sunday school at 10 a. m. Prayer meeting Thursday evening.

The Rainbow of Promise

From the store-house of nature came by intuition a priceless boon to the human race, through which physical sufferers in untold thousands are made to rejoice in the restoration of health, and all the blessings, joys and pleasures thereunto pertaining. Swift's Specific (S. S. S.) has been a blessing to me. Afflicted with rheumatism and female weakness for a number of years, during which time I took lots of medicine, nothing giving me relief but Swift's Specific (S. S. S.) What I suffered and endured before commencing on Swift's Specific (S. S. S.) is painful to even think about, but after taking that medicine I got well, and have continued to enjoy the best health since. I cannot say more than I believe in praise of Swift's Specific (S. S. S.) Mrs. M. A. PEELER, Morgantown, N. C.

IRL R. HICK'S WEATHER PROPHECY.

The following taken from the "storm chart" for 1890 of Rev. Irl R. Hicks of St. Louis will prove interesting to many. Here are his predictions for

APRIL.
April will open with softening temperature and showers—perhaps snow-squalls north. The first regular storm period for the month will be from the 5th to the 10th. The electric power of Venus, with the vernal equinox still in force, is almost sure to excite storms of rain, hail and thunder. About the 6th, 7th, 8th and 9th rapid fluctuations from warm to freezing will occur. About the 13th expect reactionary storms. From the 18th to 22nd April showers with some very hard rain storms are very probable. Watch the 19th, 20th and 21st and be prepared for the cold and frost that will follow in the track of the storms. Minor storms may be expected on the 25th and 26th. A regular storm period begins on the 29th and runs into May. Active storms will be in motion in the west on the 30th.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucus surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address

The great corn cribs are fortresses against adversity. They mean a good state that will grow rich as soon as it has had time. There are people in Kansas who sneer about corn; say that it is so low that it cannot be made grand larceny to steal it, and generally grumble away the golden hours on the subject of corn. Such blasphemy against bounteous heaven. Such should get up and get out of church when the minister prays that God may be pleased to bless the labors of the husbandman. Such should have no place by the fire and be deprived of turkey as aliens and strangers on Thanksgiving day. Kansas, having corn, is great, and shall be greater.—Noble L. Prentiss.
